Plant Templin-Bradley Lawn Seed This Year

Fall Seeding Gives Good Results—No Hot Sun, Plenty of Fall Rains
Use Our Famous Blends—Known Everywhere

The reason many people like to sow their lawn seed in the fall is because there is greater assurance in that season that the days after the tender young shoots rear their heads above ground will be cool, permitting the plant to develop without being retarded by killing hot sun, as so often happens with late spring planting. The idea is sound and you reap the benefit next spring.

For Sunny Places

Ideal Mixture. For a fine permanent lawn. Carefully blended mixture of hardy grasses best suited to growing a compact durable evergreen sod. Lb., \$1.30; 3 lbs., \$3.85; 5 lbs., \$6.35; 10 lbs., \$12.60; 25 lbs., \$31.25.

For Quick Growth

Quick Growth Mixture. Makes a good lawn quickly. Compares favorably with many of the "best" mixtures on the market. Lb., 99c; 3 lbs., \$2.95; 5 lbs., \$4.80; 10 lbs., \$9.50; 25 lbs., \$23.50.

For Shady Places

Shady Nook Mixture. Containing varieties that naturally grow in shaded places. The shady lawn must have special care as well as right kind of seed. Lb., \$1.35; 3 lbs., \$4.00; 5 lbs., \$6.60; 10 lbs., \$13.10; 25 lbs., \$32.50.

For Fewer Mowings—Fewer Weeds

Merion Bluegrass (B-27). Builds close-knit turf. The dense cushions of rich green spread rapidly, leaving little space for Crabgrass and weeds. Low growing, vigorous, heat resistant. Ask for prices.

Giant Crocus

Early Perfection. Dark lilac.
King of Striped. White, striped lilac.
Purpurea Grandiflora. Rich purple.
Snowstorm. Snow-white.
